Ready for takeoff!

- What are your questions so far?

Setup for Labs

- NodeJS (latest version 14.20.x, 16.13.x or 18.10.x)
- IDE: VS Code (free) or IntelliJ WebStorm (not free, but better)
 - IF 1. I'd be employed & 2. my employer would not pay for WebStorm license
 - THEN I'd buy it myself (~ 190€ / year, free for students)
- Chrome (or Chromium based alternative)
 - other browsers are okay for private matters

Recommendations

- Use prettier
 - especially for .ts files
- Use ESLint
 - in your IDE of choice and/or from terminal
- Use Git
 - we recommend to at least commit after every lab
 - easier switching back and forth with my solution

Starter Kit

- Slides
